Doc-ID: TRV-POL-003
Title: Travel and Expense Policy
Category: Finance
Version: 4.0
Status: effective
Effective: 2025-03-01

SYNTHETIC DEMO DOCUMENT. Orion Synthetic Industries (OSI) is fictional.

1 PURPOSE AND SCOPE

This policy sets the rules for booking business travel and claiming travel expenses at OSI. It applies to all employees and contractors who travel on company business.

2 BOOKING TRAVEL

All flights and hotels must be booked through the TravelDesk portal. Economy class is required for flights shorter than 6 hours. Business class may be used for flights of 6 hours or longer, but only with prior approval from a Vice President (VP).

Trips must be approved by the line manager before booking. International trips also require approval from the department head at least 14 days before departure.

3 PER DIEM ALLOWANCE (PDA)
Travellers receive a Per Diem Allowance (PDA) to cover meals and incidental expenses. The PDA for domestic travel is USD 75 per day. The PDA for international travel is USD 120 per day. The PDA is not paid for days on which meals are provided by a conference or client.

4 ACCOMMODATION
The maximum hotel rate is USD 220 per night for domestic travel and USD 300 per night for international travel. Rates above the cap require written approval from the department head before booking.

5 EXPENSE CLAIMS

Expense claims must be submitted in the ExpenseHub system within 30 days of returning from the trip. Receipts are required for every item above USD 25.

Claims submitted more than 60 days after the trip require approval from the Finance Director and may be rejected.

Personal expenses, fines and upgrades without approval are never reimbursed.
